

Assignment-4

Q.1 What are the mode dial in dslr?

Ans. A mode dial or camera dial is **a dial used on digital cameras to change the camera's mode**. Most digital cameras, including dSLR and SLR-like cameras, support modes, selectable either by a rotary dial or from a menu. On point-and-shoot cameras which support modes a range of scene types is offered.

Q.2 Explain portrait,landscape,action and macro mode?

Ans

Portrait-Portrait mode is **a phone camera feature that keeps objects in the foreground focused while blurring the background**. Apple dubbed the feature “portrait mode” in 2016 with the release of iOS 10.1. In photography, this depth effect is called bokeh.

Landscape-Landscape is a **horizontal orientation mode used to display wide-screen content**, such as a Web page, image, document or text. Landscape mode accommodates content that would otherwise be lost when viewed to the left or right. Portrait mode is landscape's counterpart.

Action-Action or sports modes **increase ISO and use a faster shutter speed to capture the action**. Landscape modes use a

small aperture to gain depth of field. Flash may be deactivated. Text mode increases in-camera sharpening to allow to photograph texts .

Macro- By the original definition, a macro photograph is **one in which the size of the subject on the negative or image sensor is life size or greater**. In some senses, however, it refers to a finished photograph of a subject that is greater than life size.

Q.3 FIND 5 IMAGES ON INTERNET WHICH ARE CLICKED IN PORTRAIT AND LANDSCAPE MODE ?

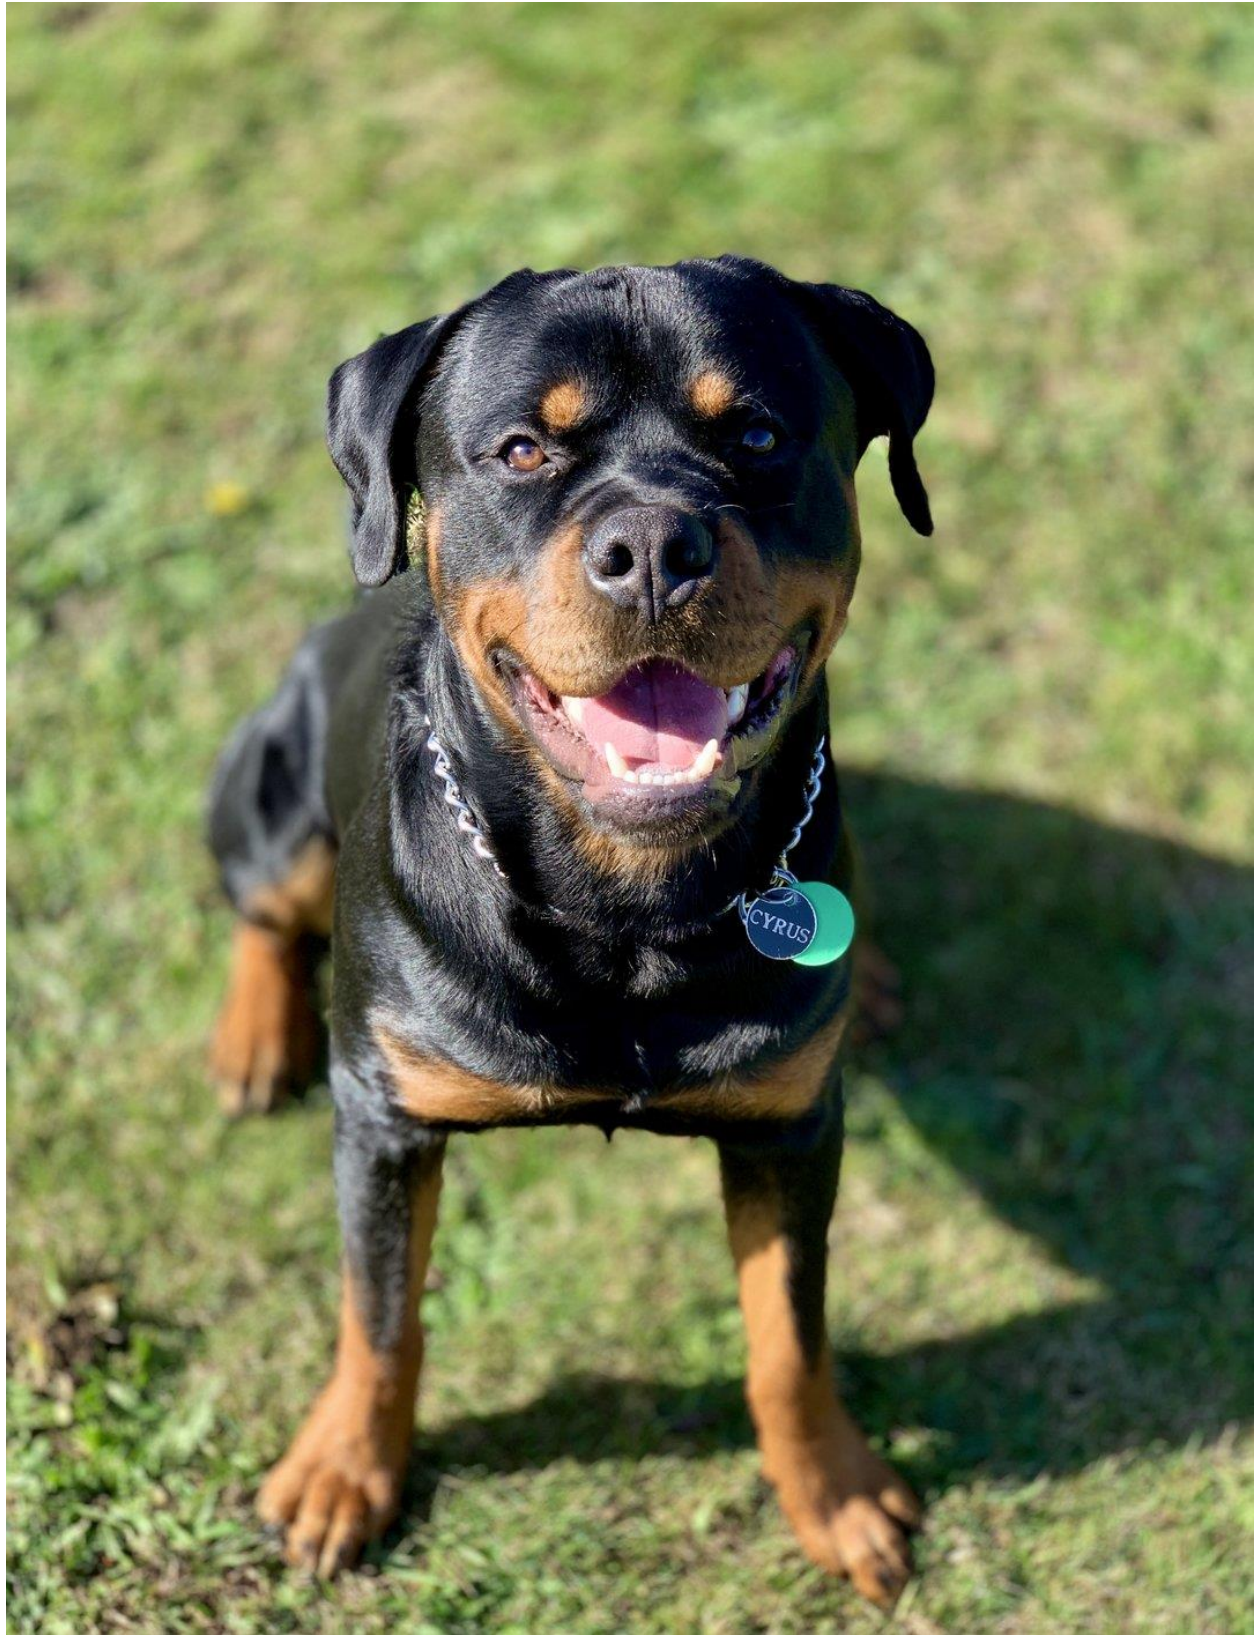

ANS.

IMAGES IN LANDSCAPE MODE

IMAGES IN PORTAIRT MODE.

2.

3.
